Campbell Scientific (Canada) Corp. (CSC) distributes manuals and product information in an electronic format. Our Resource CD will be enclosed with each order in place of paper manuals and should printed manuals be required, you will be able to simply print them from the literature that is contained on the CD. *CSC will honour requests for printed manuals at no additional cost at the time your order is placed. However, a cost will be invoiced for manuals requested after the order has been shipped.*

NOTE: Custom built and special order product literature will not be included on the Resource CD. CSC will continue to ship these items with paper manuals at no additional cost.
